

Dear Medicare Patient:

Thank you for choosing William Beaumont Hospital's off-campus facility for your health care services. The services you will receive off-campus will be provided in the same manner had you received the services on campus in Grosse Pointe, Troy or Royal Oak, including billing Medicare for those services. As you may be aware, Medicare requires a co-insurance for most out-patient hospital (facility) services, as well as physician (professional) services received at the same time, whether provided on campus or off campus. Beaumont will bill your secondary insurance, (if you have secondary insurance), for any co-insurance related to the services that you receive whether on campus or off campus.

▪ **(OPTION 1: The exact type and extent of care needed are known.)**

The following services referred by your physician may result in the following estimated co-insurance to be paid by you or your secondary insurance: _____
_____ (\$ _____).

▪ **(OPTION 2: The exact type and extent of care needed are NOT known.)**

Because the exact type and extent of care you may need has not been determined as yet by your physician, we will not be able to provide you with an estimate of your co-insurance amount. However, the average co-insurance amount for Medicare services provided by Beaumont at its off-campus facilities is \$ 60.

Thank you for choosing William Beaumont Hospital for your health care services.

We look forward to serving you now and in the future.
